EXPERIENCE

Technical Writing Consultant – *Stanford University, Palo Alto, CA (remote)* Aug 2014 – present

- Assist with reviewing, editing, and writing content for various Land, Buildings & Real Estate (LBRE) process and safety guides
- Built and incorporated a chatbot into the LBRE Safety Manual
- Rearchitected the LBRE Safety Manual to allow for print and HTML versions from a single source
- Continue to maintain the LBRE Safety Manual web site and coordinate with outside vendors for printed copies of the LBRE Safety Manual

Sr. Technical Writer – *Snowflake, Bellevue, WA*

Feb 2025 – Mar 2026

- Responsible for all content related to Snowflake Marketplace, listings, and data sharing
- Responsible for quarterly planning for documentation related to Snowflake Marketplace
- Used AI to assist with documenting new features; focused on thoughtful prompts that increased efficiency
- Created and tested SQL queries; documented and tested UI steps
- Created and incorporated diagrams and workflows

Sr. Manager, Developer Documentation – *Avalara, Seattle, WA*

July 2020 – Mar 2025

- Hired as the first Developer Documentation writer; promoted to Sr. Manager in May 2022
- Responsible for new tool selection, which reduced the time it took for small updates from one or two days down to one or two hours, increased morale along with efficiency, and improved the overall developer experience
- Responsible for product management of the developer portal
- Developed quarterly and long-term developer portal and documentation plans
- Created Avalara's first integration guides, which reduced the time-to-certification from several months to two weeks
- Reviewed and updated OpenAPI files for API documentation
- Created Avalara's developer documentation program and grew the team
- Trained and mentored new developer documentation writers
- Collaborated with Product Management on the developer site content and copy
- Created and reviewed developer blogs

	Documentation Manager – <i>H2O.ai</i> , Mountain View, CA	<i>Apr 2016 – July 2020</i>
	• Developed quarterly and long-term developer documentation plans for ML algorithms • Remotely managed and mentored a team of writers • Used open-source tools to create and maintain SDK documentation in R and Python • Wrote and tested code samples • Worked closely with engineers and data scientists to ensure accuracy of information • Reviewed source code written in C++, Java, Python, R, and Go • Owned the documentation site and the documentation team Confluence pages • Reviewed and responded to community pull requests and questions on Stack Overflow	
	Lead Technical Writer – <i>Skytree</i> , San Jose, CA	<i>Feb 2014 – Mar 2016</i>
	• Owned all documentation for machine learning software, including installation, REST API, Python SDK, CLI, GUI, admin, and user guides • Owned the documentation site • Developed quarterly documentation and documentation portal plans • Created and tested code samples for REST API, Python SDK, and CLI guides • Worked closely with engineers and data scientists to ensure accuracy of information • Assisted with content contained in marketing collateral • Remained as part-time contractor from Nov 2015 through March 2016	
ADDITIONAL EXPERIENCE	• Lead Technical Writer – <i>Aruba Networks</i> , Sunnyvale, CA	<i>Jan 2012 – Jan 2014</i>
	• Documentation Manager – <i>Phoenix Technologies</i> , Milpitas, CA	<i>Jun 2008 – Sep 2011</i>
	• Senior Technical Writer – <i>Green Hills Software</i> , Ann Arbor, MI	<i>Dec 2007 – 2008</i>
