ANGELA BARTZ

Documentation Management | Technical Writing | Developer Relations | Developer Experience
Kirkland, WA
abartzmail@gmail.com
650.521.6624

SUMMARY

Senior technical writer and documentation leader with experience across APIs, SDKs, developer documentation, and documentation management. Brings hands-on AI-assisted development experience and a career built around technical content, portals, and documentation operations.

SKILL SET

MadCap Flare • FrameMaker • RoboHelp • GitBook • MkDocs • Sphinx • Ixiasoft/DITA • AEM • Markdown • RST • HTML/XML • OpenAPI • LaTeX • GitHub • GitLab • Python • R • C# • Postman • JavaScript • SQL • CSS • Google Apps Script • Docker • ChatGPT • Claude • Gemini • Copilot

SELECTED TECHNICAL PROJECTS

Documentation publishing automation
Built an AI-assisted publishing workflow using Google Apps Script and the GitHub API that converts structured Google Docs content to Markdown, detects changed files, and publishes updates to GitHub. Added test-build functionality to validate changes without committing.

Lightweight CMS
Built a lightweight CMS using Google Sheets, Google Apps Script, HTML/CSS, and JavaScript to manage website content, subscriptions, and automated email communications.

Documentation search chatbot
Built and integrated a prototype search chatbot for a MadCap Flare help system using HTML, CSS, JavaScript, and structured documentation content.

EXPERIENCE

Senior Technical Writer – *Snowflake,* Bellevue, WA *Feb 2025 – Mar 2026*

- Owned documentation for Snowflake Marketplace, including listings and data sharing content, with responsibility for quarterly planning
- Created user guides, SQL reference documentation, and tutorials
- Used AI to assist with documenting new features; focused on intelligent prompts
- Created and tested SQL queries; documented and tested UI steps; incorporated diagrams and workflows

Senior Manager, Developer Documentation – *Avalara,* Seattle, WA *July 2020 – Mar 2025*

- Hired as the first Developer Documentation writer; promoted to Sr. Manager in May 2022
- Owned the developer portal as a product
- Created the first integration guides and cut time-to-certification from several months to two weeks
- Responsible for new tool selection, which reduced the time it took for small updates from one or two days down to one or two hours, increased morale along with efficiency, and improved the overall developer experience
- Developed quarterly and long-term developer portal and documentation plans
- Reviewed and updated OpenAPI files for API documentation
- Hired, trained, and mentored new developer documentation writers
- Collaborated with Product Management on the developer site content and copy
- Created and reviewed developer blogs

Documentation Manager – *H2O.ai,* Mountain View, CA *Apr 2016 – July 2020*

- Built quarterly and long-term plans for ML algorithm developer documentation and worked closely with engineers and data scientists to ensure accuracy
- Remotely hired, managed, and mentored a team of remote writers
- Used open-source tools to create and maintain SDK documentation in R and Python
- Created documentation using Markdown, RST, and LaTeX
- Wrote and tested code samples
- Worked closely with engineers and data scientists to ensure accuracy of information
- Reviewed source code written in C++, Java, Python, R, and Go
- Owned the documentation portal and the documentation team Confluence pages
- Engaged with the developer community by reviewing and responding to pull requests and answering questions on Stack Overflow

Lead Technical Writer – *Skytree,* San Jose, CA *Feb 2014 – Mar 2016*

- Owned all documentation for machine learning software, including installation, REST API, Python SDK, CLI, GUI, admin, and user guides – 14 guides in total
- Designed and built the documentation portal
- Provided quarterly documentation plans and documentation portal plans
- Created and tested code samples for REST API, Python SDK, and CLI guides
- Worked closely with engineers and data scientists to ensure accuracy of information
- Assisted with content contained in marketing collateral

CONSULTING WORK

Technical Writer – Consultant – *Stanford University,* Palo Alto, CA (remote) *Aug 2014 – present*

- Assist with reviewing, editing, and writing content for various Land, Buildings & Real Estate (LBRE) process and safety guides
- Built and incorporated a chatbot into the LBRE Safety Manual
- Rearchitected the LBRE Safety Manual to allow for print and HTML versions from a single source
- Continue to maintain the LBRE Safety Manual web site and coordinate with outside vendors for printed copies of the LBRE Safety Manual

ADDITIONAL EXPERIENCE

- Lead Technical Writer – *Aruba Networks,* Sunnyvale, CA *Jan 2012 – Jan 2014*
- Documentation Manager – *Phoenix Technologies*, Milpitas, CA *Jun 2008 – Sep 2011*
- Senior Technical Writer – *Green Hills Software*, Ann Arbor, MI *Dec 2007 – Jun 2008*
- Documentation Manager – *NextHop Technologies*, Ann Arbor, MI *Jun 2001 – Dec 2007*

EDUCATION AND CERTIFICATES

B.A., English – *University of Detroit Mercy*, Detroit, MI

- MadCap Advanced Developer for MadCap Flare
- Additional coursework in C++, Visual Basic, HTML, and Java

VOLUNTEER

Business Coach – *Defy Washington*

- Review personal statements, resumes, and business plans for female inmates at the Washington Corrections Center for Women. The Entrepreneurs in Training program is designed to prepare incarcerated women to return to society and to potentially earn a business grant.
