EXPERIENCE

Technical Writing Consultant – *Stanford University, Palo Alto, CA (remote)* Aug 2014 – present

- Assist with reviewing, editing, and writing content for various Land, Buildings & Real Estate process guides including the Electrical Safety and Operations Program Guide and the LBRE Safety Manual
- Built and incorporated a chatbot into the LBRE Safety Manual
- Rearchitected the LBRE Safety Manual to allow for print and HTML versions from a single source
- Continue to maintain the LBRE Safety Manual web site and coordinate with outside vendors for printed copies of the LBRE Safety Manual

Sr. Technical Writer – *Snowflake, Bellevue, WA*

Feb 2025 – Mar 2026

- Responsible for all content related to Snowflake Marketplace, listings, and data sharing
- Responsible for quarterly planning for documentation related to Snowflake Marketplace
- Utilized AI to assist with documenting new features; focused on thoughtful prompts that increased efficiency without significant costs
- Created and tested SQL queries; documented and tested UI steps
- Created and incorporated diagrams and workflows

Sr. Manager, Developer Documentation – *Avalara, Seattle, WA*

July 2020 – Mar 2025

- Hired as the first Developer Documentation writer; promoted to Sr. Manager in May 2022
- Developed quarterly and long-term developer documentation plans based on corporate strategy
- Created Avalara's first integration guides, which reduced the time-to-certification from several months to two weeks
- Reviewed and updated OpenAPI files for API documentation
- Created Avalara's developer documentation program and grew the team
- Trained and mentored new developer documentation writers
- Responsible for new tool selection, which reduced the time it took for small updates from one or two days down to one or two hours, increased morale along with efficiency, and improved the overall developer experience
- Collaborated with Product Management on the developer site content and copy
- Created and reviewed developer blogs
